

DUM DUM GIRLS

I Will Be

Sub Pop

10 Facing the tidal wave of hyperbole and hollow hype head on and straddling it like it ain't no thang, the girl we originally fell in love with when we heard her blissed-out cover of G.G. Allin's "Don't Talk to Me" has turned in what is already a contender for album of the year. *I Will Be* distills all the best bits of the torrent of bands that release records on labels like Woodsist, Captured Tracks, Art Fag and Hozac into a slacker-pop-punk masterpiece.
